# WELCOME

18th /19th / 20th June 2024  
Kursaal Conference Centre  
San Sebastian  
[lubmat.org](http://lubmat.org)

Dear colleagues,

We will be delighted to welcome you at another edition of the Lubmat International Conference, the 2024 edition, which is due to be held at the Kursaal Congress Centre in San Sebastián on June 18, 19 and 20.

On this occasion, LUBMAT conference is held together with the 12th Iberian Conference on Tribology, IBERTRIB enhancing not only the scientific level but also the industrial praxis enabling an exchange of experiences useful for everyone to take place in a relaxed, cordial atmosphere.

The conference slogan “The closest encounter between industry and science” seeks to reinforce the links between actual practice in companies and research and development, which enables us to innovate and create products and services with increased added value.

The venue chosen is the Kursaal Congress Centre which offers ideal conditions in terms of location, size, equipment and facilities to fully meet our needs relating to technical exchange and personal contacts between colleagues from different fields and cultures.

For those who do not know the city, it could provide an opportunity to discover it. San Sebastian is a city open to the sea with the beaches of Zurriola, Ondarreta and La Concha, with Santa Clara Island nestling in the centre of the bay and sheltered by the Igeldo, Urgull and Ulía mountains. It also has emblematic buildings, commerce and a quality gastronomic offer in addition to long pleasant walks enabling people to get to know the city on foot.

This conference aims to be an unforgettable event, not only from the scientific and industrial perspective but also from the human, social and cultural one. We look forward to seeing you all and we will be delighted to greet you in person.

Don't miss this opportunity. We are looking forward to seeing you.

**Ana Aranzabe**

Deputy General Manager & Chief Scientific Director  
TEKNIKER

# HEADQUARTERS

## Kursaal Congress Centre, San Sebastian

📍 Centro Kursaal Elkargunea Zurriola Avenue, 1, 20002. Donostia - San Sebastián

**San Sebastian** is a traditional and well-known destination for tourists and over the last few decades for conventions as well. The city has settled around the unique bay of La Concha (the Shell), and on the banks of the mouth of the river Urumea. Within the same district, mountains and beaches shape an exceptional display of urban scenery combining carefully tended architectural features with a unique natural landscape. San Sebastian is a city to enjoy by foot.

**The Kursaal Congress Centre** is located in the very heart of the city, facing the Bay of Biscay, the epicentre of the city's cultural and congress activity. Get deeper into these two translucent glass cubes and be surprised by the Zurriola beach.

The innovative nature of **Kursaal** is apparent both in its original architectural design and its infrastructure offering functionality and versatility. Designed by Rafael Moneo, the building is a synthesis of artistic creativity and the artist's ability to combine the most advanced modern technologies and offer them in the equipment required to organise events. The avant-garde nature of this intelligent building is clear combining conceptual, aesthetic, technical and constructive innovation.
